PARTY INSPECTION

The LBI Foundries Group places particular emphasis on customer service, meeting deadlines whilst providing a high quality service to meet our costumers' casting and machining needs. LBI Foundries offer **rough machined as well as 100% machined** with LBI through centrifugal casting of bronze, stainless steel and aluminium parts with SRI and INOXYDA for sand casting of copper based alloys. The LBI Foundries group offers solutions for the most demanding applications to world wide customers. Our alloys are engineered to provide excellent corrosion resistance.
